PROFESSIONAL SUMMARY

Full-stack developer building SaaS platforms, mobile apps and offline-first Windows software. Work spans user interfaces, APIs, databases, AI integrations and deployment, with a focus on React, TypeScript, Node.js and Python. Projects include sales tools, retail systems and workflow automation.

PROFESSIONAL EXPERIENCE

Full-Stack Developer | Everything to Gain

2025 - Present | Remote

- Build features for three AI SaaS products: Strategy Navigator, JourneyAI and SaleSide AI, covering frontend, backend and third-party integrations.
- Built multi-tenant workflows and role-based access for Strategy Navigator, with AI integrations, request batching and Redis caching.
- Implemented real-time chat, speech-to-text and OpenAI/Groq routing for JourneyAI assistants; developed transcription, objection tracking and meeting summaries for SaleSide AI.
- Integrated Stripe and PayPal subscriptions with webhook-driven provisioning, plus Slack, Asana and Basecamp connections using OAuth and webhooks.
- Worked on Docker and Jenkins delivery pipelines for automated builds and tests.

Full-Stack Developer Intern | Aziin Engineering Solution

Feb 2025 - May 2025 | Sfax, Tunisia

- Built a MERN e-learning platform with course management, JWT authentication, an AI chatbot and real-time WebSocket classroom features.

Mobile Developer Intern | SAC Marquage

Sep 2024 - Oct 2024 | Tunisia

- Developed a React Native/Expo RFID app and Django REST APIs for tag management, device communication and synchronization.

Full-Stack Web Developer Intern | Proged

Jul 2022 - Aug 2022 | Tunisia

- Developed React and .NET e-commerce features for product catalogs, payments and orders, using SQL Server and MongoDB.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, Python, Rust

Web & mobile: React, Next.js, React Native, Expo, Tailwind CSS

Backend: Node.js, Express, FastAPI, Django, REST APIs, WebSockets, JWT, OAuth

Data & desktop: PostgreSQL, MongoDB, SQLite, Redis, Tauri

AI & automation: OpenAI, Groq, Whisper, LangChain, web scraping, data enrichment

Testing & delivery: Jest, pytest, Postman, Git, Docker, Jenkins, GitHub Actions, Vercel

SELECTED PROJECTS

Kessetna & Library Stock | Windows POS and inventory

React, TypeScript, Tauri, Rust, SQLite

Built offline-first retail applications covering sales, stock, purchases, returns, customer debts and cash tracking. Implemented barcode workflows, receipt printing, and backup and restore. Packaged Windows installers with local SQLite storage and transaction validation in Rust.

AutoSEO | SEO audit and prioritization

React, FastAPI, PostgreSQL, Redis

Built website crawling and SEO issue-detection workflows, grouping related findings into root causes and prioritizing fixes. Connected audit data to an interface for reviewing site health and deciding what to address next.

AutoTN | Automotive mobile marketplace

React Native, Expo, Express, PostgreSQL

Built Arabic, French and English marketplace flows with RTL support, listings, seller profiles and WhatsApp contact. Added VIN decoding, AI-assisted vehicle diagnostics and price-estimation features.

BERBRY | E-commerce with interactive 3D

React, TypeScript, Three.js, Express, PostgreSQL

Connected a fashion storefront and admin application to a shared API and database. Built product variants, cart and checkout, order management and interactive 3D product experiences.

Job Scraper & Outreach Automation

Python, Node.js, MongoDB, OpenAI

Built scraping and enrichment pipelines to collect job listings and discover company contacts. Combined lead context with AI-generated outreach drafts, bringing research and message preparation into one workflow.

Additional application work

- **RxCare / Deep Analyzer Suite:** React Native/Expo healthcare app with prescription and refill tracking, care messaging and AI assistant features.
- **Integrity Solve:** React, Express and PostgreSQL AML/CTF compliance prototype with onboarding, case review, escalations and PDF audit summaries.

EDUCATION

BSc, Big Data & Analytics | ISIMS, Sfax, Tunisia | 2022 - 2025

Software Engineering Diploma | ESPS, Tunisia | 2022

CERTIFICATIONS

freeCodeCamp: JavaScript Algorithms; Responsive Web Design.

LANGUAGES

Arabic: Native | English: Advanced | French: Intermediate (B1)
